

El Alsson American International School Middle School Fieldtrip Kan Yama Kan November 16-18-2006

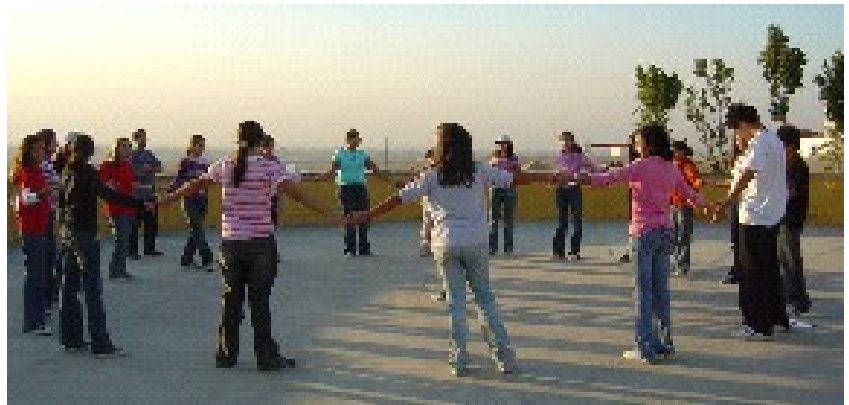

El Alsson American International Middle School students went on a fieldtrip to Kan Yama Kan for a team-building and skill-building weekend. Students from El Alsson's Leadership and Social Awareness Program acted as counselors, leading the students in activities and assignments.

Dr. Adly Hassanein and his wife Djodi showed Middle School students, along with Year 12/13 counselors and El Alsson teachers a fantastic weekend full of great learning experiences and a lot of fun!

Teambuilding

Counselors, participating in El Alsson's Leadership and Social Awareness Program, led students in games and activities that taught skills in cooperation, listening, and team-work.

Learning

Dr. Adly and Djodi taught students about environmental issues, animal care, plant care, fossils, rock sculpting and many other things! Students also applied measuring skills to a mapping project and learned important lessons about listening, friendship and honesty.

Fun and Friendship!

Middle School students also relaxed, enjoyed the beautiful area, and spent time building friendships and having fun. They even befriended Ernest the camel and Grade 6 adopted Jesse, a baby duckling.

A very special thanks to Laila, Maged, Aly, Talaat, Calla, Kelly, Nada and Hekmat for being such great role models and leaders!
